Lesson 2- Discovery Learning Activity<br>-Make sure all boxes are unclicked before beginning.-

$\mathbf{a}^{* f(x)}$

1. Click the red box that says, "Show $a * f(x)=$ ".
2. Set the red slider to 1 .
3. Record your observations in Table 1.
4. Set the red slider to -1 .
5. Record your observations in Table 1.
6. Set the red slider to 2 .
7. Record your observations in Table 1.
8. Set the red slider to 0.5 .
9. Record your observations in Table 1.
10. Unclick the red box.
$\mathbf{f}(b x)$
11. Click the purple box that says, "Show $f(b x)="$.
12. Set the purple slider to 1 .
13. Record your observations in Table 2.
14. Set the purple slider to -1 .
15. Record your observations in Table 2.
16. Set the purple slider to 2 .
17. Record your observations in Table 2.
18. Set the purple slider to 0.5 .
19. Record your observations in Table 2.
20. Unclick the purple box.
$\mathrm{f}(\mathrm{x}-\mathbf{c})$
21. Click the orange box that says, "Show $f(x-c)="$.
22. Set the orange slider to 0 .
23. Record your observations in Table 3.
24. Set the orange slider to 1 .
25. Record your observations in Table 3.
26. Set the orange slider to -1 .
27. Record your observations in Table 3.
28. Unclick the orange box.
$\mathbf{f}(\mathbf{x})+\mathbf{d}$
29. Click the blue box that says, "Show $f(x)+d=$ ".
30. Set the blue slider to 0 .
31. Record your observations in Table 4.
32. Set the blue slider to 1 .
33. Record your observations in Table 4.
34. Set the blue slider to -1 .
35. Record your observations in Table 4.
36. Unclick the blue box.

Table 1

|  | $\mathrm{f}(\mathrm{x})=?$ | $\mathrm{a}^{*} \mathrm{f}(\mathrm{x})=?$ |
| :---: | :---: | :---: |
| 1 |  |  |
| -1 |  |  |
| 2 |  |  |
| 0.5 |  |  |

Table 2

|  | $\mathrm{f}(\mathrm{x})=?$ | $\mathrm{f}(\mathrm{bx})=?$ |
| :---: | :---: | :---: |
| 1 |  |  |
| -1 |  |  |
| 2 |  |  |
| 0.5 |  |  |

Table 3

|  | $\mathrm{f}(\mathrm{x})=?$ | $\mathrm{f}(\mathrm{x}-\mathrm{c})=?$ |
| :---: | :---: | :---: |
| 0 |  |  |
| 1 |  |  |
| -1 |  |  |

Table 4

|  | $\mathrm{f}(\mathrm{x})=?$ | $\mathrm{f}(\mathrm{x})+\mathrm{d}=?$ |
| :---: | :---: | :---: |
| 0 |  |  |
| 1 |  |  |
| -1 |  |  |

## Guided Questions

1. What did you notice with $f(x)$ and the red graph, $a^{\star} f(x)$ ?
2. What did you notice with $f(x)$ and the purple graph, $f(b x)$ ?
3. Were there any similarities or differences with $a^{\star} f(x)$ and $f(b x)$ ?
4. What did you notice with $f(x)$ and the orange graph, $f(x-c)$ ?
5. What did you notice with $f(x)$ and the blue graph, $f(x)+d$ ?
6. Were there any similarities or differences with $f(x-c)$ and $f(x)+d$ ?
